- **YYY COMPANY** has 1.480 total empolyees.
- **R&D** is the largest departmnet, accounting for 65% of total empolyees.
- **Sales** has the highest average salary and the highest attrition rates

ATTRITION DEMOGRAPHY

- The Sales Department has the highest attrition rate.
- The Human Resources job role has the highest attrition rate, higher than Sales Executives (part of Sales Department)
- Employees aged 26–35 show the highest attrition rate.
- Many employees left without receiving a promotion.

ATTRITION DEMOGRAPHY

- The highest attrition rate occurred in the lowest salary category.
- Almost half of the employees who left had low job satisfaction.
- Many employees who left lived closer to the company.
- Employees who worked overtime were more likely to leave the company.
- Many employees who left had a good work-life balance, but the proportion was still lower than among employees who stayed.

CONCLUSION

Attrition is highest among lower-paid employees and is associated with limited career progression, overtime, and low job satisfaction.

Improving compensation, promotion opportunities, workload management, and employee satisfaction could help reduce employee attrition.

**THANK YOU
SO MUCH!**
